SIGVARIS
LIFE FOR LEGS

Athletic Recovery
*Because not all
compression socks
are created equal*

Because not all compression socks are created equal!

Recently, compression garments have become highly visible in all major sports, in gyms, and as a part of regular exercise attire. Whether it's during the actual event, after the event, or even while traveling, athletes and physically-active people are making graduated compression socks part of their everyday life.

SIGVARIS, the global leader in graduated compression garments, introduces the first product of the Active Therapy collection: The Athletic Recovery sock. The Athletic Recovery sock helps to flush out the lactic acids built up in the leg muscles during exercise, as well as relieve tired, aching legs and exercise-induced muscle soreness.

Active Therapy – Athletic Recovery

- ^ Promotes lactic acid flush-out and relieves delayed onset leg muscle soreness!
- ^ Superior athletic sizing assortment and comfort and fit with 50+ years of graduated compression expertise!
- ^ Patented *Drirelease*® and latex-free yarns with an embedded *Freshguard*® treatment that virtually eliminates odors!
- ^ True Graduated Compression from the global leader of graduated compression socks!

Active Therapy Sizing

Sock Size	Women's Shoe Size	Ankle Circumference	Men's Shoe Size	Sock Size
